

Compact 5000 MKII

Insurance Cash Rating £5,000 (Jewellery £50,000)

A range of safes in 8 sizes, suitable for the home and business premises.

The overall body thickness is 50mm and the cavity between the inner and outer bodies includes bolt deflectors and is packed with a fire and burglary resistant monolith. Fire tested to BS476 Part 20.

The door plate is 10mm thick and the overall door thickness is 85mm. The bolt work has 28mm bolts that engage deep into the body of the safe with rear fixed dog bolts.

The bolt work is secured by a double bitting 8-lever keylock (certified to EN1300) and a live relocking device protected by a hardened drill resisting plate.

When the relocker moves into position, the safe is effectively locked in two different places.

Supplied standard: keylocking with 2 x keys, base fixing and 1 x adjustable shelf.

Locking Options include: mechanical (dial) combinations, electronic combinations, time locks, time delay locks and the facility for dual locking.
