

Europa Grade 2

Insurance Cash Rating £17,500 (Jewellery £175,000)

The Europa range of safes have been designed to meet the stringent requirements of European Safe testing as outlined in the LPS 1183: Issue 4 and the EN1143-1: 2005, tested and certified by the LPCB. It is suitable for larger commercial and domestic risks.

The range is well designed, soundly engineered and manufactured under the control of ISO 9001:2008, using the latest technology and production techniques. Barrier construction embodies innovative design combined with approved materials providing resistance in excess of the test criteria. The boltwork arrangement is 3-way moving with fixed 32mm rear dog bolts.

Standard locking is supplied by a single 8-lever double-bitted keylock (certified to EN1300) with live and dual interconnecting passive relockers. Base fixing is standard. Fire tested to BS476 Part 20.

This certification demonstrates our commitment to offering proven levels of security performance through one of the worlds leading security testing and approvals organisations; one that is widely recognised by Insurers, Police, banks and retailers.

Internal optional fittings include additional adjustable shelves, full-width lockable drawer units (one single drawer).

LOCKING OPTIONS INCLUDE: Keyless combination; electronic combination, time locks, time delay locks or dual locking.
